

# Suchi Prommuangkun

QA Automation Engineer | Software QA Engineer

Southampton, UK – Open to relocate | 07306999756 | [suchiraphan@outlook.com](mailto:suchiraphan@outlook.com) | [www.linkedin.com/in/suchiraphan](https://www.linkedin.com/in/suchiraphan)

QA & Automation Engineer with 4+ years' experience designing and maintaining automated test frameworks, reducing regression time, and improving release quality in Agile teams. Skilled in Cypress, Selenium, API testing, CI/CD, cloud deployments, and scripting with TypeScript, Python and Java. Recently completed an MSc in Artificial Intelligence, adding a solid understanding of machine learning and LLMs, which I'm beginning to apply to modern, data-driven QA and automation practices.

## WORK EXPERIENCE

### Anglepoint

London, UK

Software Quality Assurance Engineer

Oct 2022 – May 2024

- Designed and implemented automated testing frameworks using Cypress, Jasmine, and Python, reducing regression testing time from 1 day to 17 minutes and improving release reliability.
- Integrated automated UI/API tests into Azure DevOps CI/CD pipelines, resulting in a 30% reduction in defect escape rate by enabling earlier detection of issues during development cycles.
- Developed functional, regression, and data-driven test cases aligned with business logic and product requirements.
- Collaborated with cross-functional teams, including developers, product managers, and customer support to troubleshoot over 20 critical issues per quarter, enhancing overall user satisfaction for a user base exceeding 2,000 active clients.
- Ensured timely defect resolution by managing bug reports, communicating root causes, and driving engineering fixes, shortening issue resolution time by 1–2 sprints and reducing recurring defects around 25%.
- Guided cross-functional teams in QA methodologies, accelerating automation adoption and improving overall test quality.
- Solely maintained and supported the OpenSAM, FisherITS's product, during a major team transition by handling feature development, QA cycles, release management, customer support, and stakeholder communication across 24 feature deployments and while sustaining zero critical bugs for 12 months.

### FisherITS

London, UK

Software Quality Assurance Developer

Jun 2020 – Oct 2022

- Built and maintained automated test suites using Selenium, REST Assured, JUnit, Jasmine, and TypeScript, enhancing test coverage across UI and API layers.
- Developed 150+ automated integration and regression tests, reducing release delivery time by 20% and improving overall efficiency in testing processes.
- Designed and executed UAT cycles, ensuring high-quality, reliable releases aligned with client and business expectations.
- Integrated automated tests into Jenkins CI/CD workflows and supported production deployments using AWS EC2, Docker, and Ubuntu, while also conducting manual testing for comprehensive quality assurance.
- Contributed to full-stack development using Angular, TypeScript, Java, Spring Boot, and MongoDB, supporting product enhancements and QA needs.
- Authored detailed QA documentation, test plans, and release reports using Confluence, Jira, and Git, improving team visibility and communication.
- Supported database structures with MongoDB and assisted with production infrastructure, ensuring smooth deployments.

Technology Intern

Jun 2019 – May 2020

- Conducted manual testing and created automated scripts for unit, integration, and API testing using TypeScript and Jasmine.
- Developed UI components using Angular, TypeScript, HTML/CSS, resulting in enhanced usability and user satisfaction.
- Innovated internal data analysis strategies utilising customer data within the platform to support product insights.

## EDUCATION

### University of Kent

Canterbury, UK

MSc in Artificial Intelligence (Distinction)

Graduation Date: Sep 2025

### University of Greenwich

London, UK

MSc in Big Data and Business Intelligence (Distinction)

Graduation Date: Jan 2019

### Mahidol University

Salaya, Thailand

BEng in Computer Engineering

Graduation Date: Jun 2017

## TECHNICAL SKILLS

**Automation & QA:** Cypress · Selenium WebDriver · REST Assured · Jasmine · JUnit · API Testing · UI Testing · Integration Testing · Regression Testing · Manual Testing · Test Planning · UAT · ISTQB CTFL 4.0; **Programming:** Python · Java · TypeScript · JavaScript · HTML · CSS; **DevOps & Infrastructure:** Jenkins · Azure DevOps · Docker · AWS EC2 · Git · Linux · CI/CD Pipelines · Swagger · Jira · Confluence; **Databases:** MongoDB · SQL · Neo4j; **AI & Data:** Machine Learning · LLMs · Prompt Engineering · Knowledge Graphs · Pandas · NumPy
